National Statistics

The Census asked respondents to identify who their landlord is and the results reflect the responses they gave.

In the past decade half of the local authorities in Wales have transferred the management of all their local authority housing stock to other social landlords.

Individuals responding to the Census will report their understanding of their landlord and this may not reflect the actual management arrangements in all cases.

### **CONCLUSIONS**

**In Sonning Common, where the HRF (formerly the "head of the household") is over 65,**

**The property is predominantly owned.**

**Some 15% of this group rent, but there is very little renting from private landlords.**
